NEW YORK, MONDAY, JUNE 18, 1894.

MAY BREAK A RECORD.

This Promises to Be the Warmest June 18 Since 1877.

The Mercury Went Up Nine Degrees, to 83, in One Hour.

Then Fell Back Four Points, So as to Take a Fresh Start.

On this, the anniversary day of the fell back nearly half that many points in

It was 74 degrees by the Government instrument on the top of the Equitable Building at 8 o'clock. The observation was taken at that hour, and the officer in charge was amazed to see the indicator suddenly begin a soaring career and mount up and up until, as the Trinity Church clock banged 9, this devoted city lay under a blanket of 83 degrees of heat, It seemed that the sunshine aloft and the furnaces below had combined to hold a grand terrestial bake, but just at the max a cloud appeared from somewhere and the fluid in the tube began to fall. It dropped back four degrees, and at 10

o'clock rested at 79. 'All this was merely a diversion, a sort of capricious prelude, to the business of the day, which is all to be transacted score 90. Here is what he has to say about this hot day in general and par-

about this hot day in general and particular:

"A warm wave is covering all the country east of the southern lake regions. There were showers last night everywhere within that limit except over the immediate coast line. The temperature is uniform over the warmare. Boston is four degrees and Jacksonville, Fin, two degrees warmer than we are, while Buffalo and Washington are exactly even with us.

"At 8 o'clock this morning the temperature here registered 74; Boston and Philadelphia, 78; Buffalo, Cleveland, Washington and Norfolk, 74; Chicago, 60; St. Louis, 72; Jacksonville, Fla. 76, and San Francisco, 52. The hottest spot was at Titusville, Fla. with 80 degrees, and the coolest at Marquette, Mich., with 48.

"It is going to get warmer here to-day

(By Associated Press.)

the Methodist and Daptist Churches and in the Y. M. C. A. rooms last evening praised God for the plentiful rains that have fallen over this part of the State since last Europa, breaking the crought and insuring good crops.

Fled, but There Are More.

Queen Is Being Sought For.

be no dearth of witnesses. This, too, hours, and who lives at 1773 First avenue, cumstances as to give rise to the belief despite the fact that some mysterious attempted suicide by cutting his throat influence has been at work for the past with a caseknife early this morning. two weeks and even longer to spirit. He became Many important witnesses have already 'attentive to her, and a few months ago placed themselves beyond the jurisdiction of the Committee's subpoena-servers, and it is rumored that a fund has been battle of Waterloo, the mercury cut mised to pay the expenses of transporta-merry didoes. Early in the morning it their own travelling expenses. Not a few, it is said, have suddenly started for Europe, and report has it that official influence has been at work to secure free

there are plenty left who are willing and ready to testify whenever they may be called.

"The biggest corruption fund that could be raised by those affected by this investigation," said a gentleman in close relation with the Committee to an 'Evening World" reporter this morning, would not be enough to remove all of the 15,000 persons who are able to give testimony before the Committee regarding blackmail and bribery."

The prospect for the week is that the inquiry will be continued on about the same lines as those which have been on the top floors of the thermometer. any number of witnesses of that kind on Mr. Dunn thinks that the heat will his list, more, indeed, than will be necesthe blackmailing system extend to every precinct in the city.

Further than this, neither he nor Mr. Jerome would go this morning. There may be one or two star witnesses during

may be one or two star witnesses during the week, but from the statements of the counsel, most of the evidence will be cumulative.

Mr. Goff was asked this morning if there was any truth in the report that Archbishop Corrigan would be subpoenned as a witness before the Committee and if so, what the character of his testimony woud be, but he declined to say anything about the matter, one way or another, while Mr. Jerome denied all knowledge of such a subpoena, or the intention to summon the Archbishop, who is at present out of the city.

The leading counsel for the Committee is beginning to show the strain of the hard work which has been put upon him. He looked tired and worn when he reached his office this morning, and he said he was simply overwhelmed with work.

"It is not probable that we will close."

Washington and Norfolk, 74; Chicago, and San Francisco, 52. The hottest spot was at Titusville, Fla., with 89 degrees, and the coolest at Marquette, Mich., with 48.

"It is going to get warmer here to-day and 90 will doubtless be reached. The day may terminate with a thunder shower. That kind of a disturbance is imminent. It will be a local one and may be put cft until to-night.

"It is more than uncomfortable owing to the high percentage of humidity, which at 8 o'clock scored 89 per cent. We have a morning breeze from the Bouth of about eight miles an hour. This is apt to veer to the West and Northwest to-morrow with cooling results, but indications do not warrant a prophetic think that about that own own age to June we have had since 1877, when it was 85 degrees.

It was a fine day for outing yesterday, just as Mr. Dunn promised on Saturday it would be. It was hot in town, sure enough, but those who plucked up courage to get to the seashore or the country were rewarded by cool breazes. There was a uniform wind of eight miles an hour right in town. The trammeter strck its highest alitude at 89 degrees along about 4 o'clock.

Mayor Gilroy, who spent the day at Rockaway, said that towards evening the sea breeze grew so fresh that he found it more comfortable on the landside verandas of the hotel. His experience is but an example of everybody else who ventured forth and returned to report a great day.

The first case of prostration from the seat reported to-day was Isaac Goldberg, sixteen years old, of 165 East One Hundred and Sixth street. He fell unconscious at the corner of Leonard street and Booadway the didnards surgeon and was abble to go home.

Was able to go home.

HOT WEATHER ACCIDENTS.

Two Men and a Girl Fall from Windows During the Night.

Last night George Crawford, twenty-four the street, went to sleep by an open window and pitched out. He fell twenty feet to the yard and sustained severe injuries to his back. He was taken to the New York Hospital.

A similar accident befell Hugh Coffey, fifty-ene years old, of 508 Second avenue, who fell, while asleep, from the third-story window of his home. A compound fracture of the skull was the result and he was taken to Bellevue Hospital.

Bight-year-old Lizzie Borisky, of 3 Bayard street, while, trying to get a breath of fresh air from the sir-siaft, fell through a window opening into the shaft and fractured her skull. She was removed to Gouverneur Hospital.

Proised God for Rain.
